Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has steadily advanced, and offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a collection of over 8,000 volumes.

The College Villa, situated near the city, is large and beautiful, with ample buildings, spacious groves, and recreation grounds. Here the students may spend their weekly holiday and the summer vacation in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Thursday of June, when the annual commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Thursday of June. A thorough

examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A.B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A.M. is obtained by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen.

Bulletins are sent three times a year to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess which begins on the 24th of December, all, who can conveniently visit their parents, are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of other denominations are admitted, provided they are willing to attend the public exercises of religious worship.

Directions to Parents.

No advances will be made by the Institution for clothing, pocket-money, or other expenses of the students. If parents therefore desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, six pairs of woollen and six pairs of cotton socks, six handkerchiefs, six towels, and two pairs of boots or shoes, etc.

No student is allowed to keep money in his possession. The pocket-money must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed to the students. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary travelling expenses.

Parents who live at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed to "*St. Louis University, corner of Ninth street and Washington avenue, St. Louis, Mo.*"

Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights, and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has steadily advanced, and offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a collection of over 8,000 volumes.

The College Villa, situated near the city, is large and beautiful, with ample buildings, spacious groves, and recreation grounds. Here the students may spend their weekly holiday and the summer vacation in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Thursday of June, when the annual commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Thursday of June.

A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A.B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A.M. is obtained by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen, unless he is considerably advanced in his studies.

Bulletins are sent three times a year to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess, which begins on the 24th of December, all, who can conveniently visit their parents, are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of other denominations are admitted, provided they are willing to attend the public exercises of religious worship.

Instructions to Parents.

No advances will be made by the Institution for clothing, pocket-money, or other expenses of the students. If parents, therefore, desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, ten pairs of socks, six handkerchiefs, six towels, and two pairs of boots or shoes, etc.

The pocket-money of the students must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents who live at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed to "*St. Louis University, corner of Ninth street and Washington avenue, St. Louis, Mo.*"

Societies.

The Philalethic Society

was instituted in 1832, with the sanction of the Board and Faculty of the University. Its objects are to prepare its members for public speaking, and to furnish their minds with facts and arguments on literary, historical, and philosophical questions. It possesses a spacious hall, which has just been elegantly fitted up. Two large designs in fresco cover almost the entire ceiling. One of these, representing Literature and Art offering their tribute to Education, forms a group of three figures; Education is designated by a majestic being resting on a cross; Literature holding a quill, and Art a brush and pallet, are two heavily draped female figures, clasping hands with each other, and apparently advancing towards Education. The other design is emblematical of the three kinds of public speaking. It consists of allegorical delineations of Patriotism, Justice, and Religion, crowning Eloquence.

The walls, and the corners of the ceiling, are further ornamented with Gothic pillars and medallion heads of celebrated orators. Besides beautiful steel engravings of Raphael's seven famous Scriptural cartoons, donated to the Society during the course of the past year, the hall contains a handsome collection of the photographs of the Alumni graduated at the University.

The number of acting members now composing the Society is twenty-five. The following are the

Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights, and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has steadily advanced, and offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a collection of over 8,000 volumes.

The College Villa, situated near the city, is large and beautiful, with ample buildings, spacious groves, and recreation grounds. Here the students may spend their weekly holiday and the summer vacation in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Thursday of June, when the annual commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Thursday of June.

A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A.B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A.M. is obtained by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen, unless he is considerably advanced in his studies.

Bulletins are sent three times a year to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess, which begins on the 24th of December, all, who can conveniently visit their parents, are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of other denominations are admitted, provided they are willing to attend the public exercises of religious worship.

Instructions to Parents.

No advances will be made by the Institution for clothing, pocket-money, or other expenses of the students. If parents, therefore, desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, ten pairs of socks, six handkerchiefs, six towels, and two pairs of boots or shoes, etc.

The pocket-money of the students must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents who live at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed to "*St. Louis University, corner of Ninth street and Washington avenue, St. Louis, Mo.*"

Societies.

The Philalethic Society

was instituted in 1832, with the sanction of the Board and Faculty of the University. Its objects are to prepare its members for public speaking, and to furnish their minds with facts and arguments on literary, historical, and philosophical questions. It possesses a spacious hall, which is elegantly fitted up. Two large designs in fresco cover almost the entire ceiling. One of these, representing Literature and Art offering their tribute to Education, forms a group of three figures; Education is designated by a majestic being resting on a cross; Literature holding a quill, and Art a brush and pallet, are two heavily draped female figures, clasping hands with each other, and apparently advancing towards Education. The other design is emblematical of the three kinds of public speaking. It consists of allegorical delineations of Patriotism, Justice, and Religion, crowning Eloquence.

The walls, and the corners of the ceiling, are further ornamented with Gothic pillars and medallion heads of celebrated orators. Besides beautiful steel engravings of Raphael's seven famous Scriptural cartoons, donated to the Society, the hall contains a handsome collection of the photographs of the Alumni graduated at the University.

Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights, and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, has steadily advanced, and it offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country ; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a collection of over 8,000 volumes.

The College Villa, situated near the city, is large and beautiful, with ample buildings, spacious groves, and recreation grounds. Here the students may spend their weekly holiday and the summer vacation, in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Thursday of June, when the annual commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Thursday of June. A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A.B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A.M. is obtained, by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen, unless he is considerably advanced in his studies.

Three times a year, Bulletins are sent to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess, which begins on the 24th of December, all, who can conveniently visit their parents, are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of every denomination are admitted, provided they are willing to attend the public exercises of religious worship.

Instructions to Parents.

No advances will be made by the Institution for clothing, pocket-money, or other expenses of the students. If parents, therefore, desire that the College procure any articles for their sons, a sum, sufficient to meet the expense, should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer, and two winter suits, six shirts, ten pairs of socks, six handkerchiefs, six towels, two pairs of boots or shoes, etc.

The pocket-money of the students must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed. When, at the end,

of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents, living at a distance, should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters, sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed, "ST. LOUIS UNIVERSITY, corner Ninth street and Washington avenue, St. Louis, Mo."

Societies.

The Philalethic Society

was instituted in 1832, with the sanction of the Board and Faculty of the University. Its objects are to prepare its members for public speaking, and to furnish their minds with facts and arguments on literary, historical, and philosophical questions. It possesses a spacious hall which is elegantly fitted up, and tastefully adorned with appropriate designs, and with representations of celebrated orators.

Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights, and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, has steadily advanced, and it offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country ; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a separate collection of over 8,000 volumes.

The College Villa, near the city, commands an extensive view of the Mississippi River and surrounding country. In its ample buildings, spacious groves and recreation grounds, the students may spend their weekly holiday and the summer vacation, in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Wednesday of June, when the annual commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Wednesday of June. A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A. B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A. M. is obtained, by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen, unless he is considerably advanced in his studies.

Three times a year, Bulletins are sent to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess, which begins on the 24th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of every denomination are admitted, provided they are willing to attend, in a respectful manner, the public exercises of religious worship.

Instructions to Parents.

No advances will be made by the Institution for clothing, pocket-money, or other expenses of the students. If parents, therefore, desire that the College procure any articles for their sons, a sum sufficient to meet the expense, should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer, and two winter suits, six shirts, ten pairs of socks, six handkerchiefs, six towels, two pair of boots or shoes, etc.

The pocket-money of the students must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents living at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed, "ST. LOUIS UNIVERSITY, corner Ninth Street and Washington Avenue, St. Louis, Mo."

Acknowledgments.

The President and Faculty wish to express their grateful acknowledgment for the following donations, made to the Museum during the past year :

Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, has steadily advanced, and it offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,500 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a separate collection of over 8,000 volumes.

The College Villa, near the city, commands an extensive view of the Mississippi River and surrounding country. In its ample buildings, spacious groves and recreation grounds, the students may spend their weekly holiday and the summer vacation, in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Wednesday of June, when the Annual Commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Wednesday of June. A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit obtained by the students in the different classes are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A. B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A. M. is obtained, by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen, unless he is considerably advanced in his studies.

Three times a year Bulletins are sent to the parents or guardians of the students, to inform them of the conduct, health, and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students whose parents or guardians live in the city or vicinity are allowed to visit them.

During the eight days' recess, which begins on the 24th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of every denomination are admitted, provided they are willing to attend, in a respectful manner, the public exercises of religious worship.

Instructions to Parents.

No advances will be made by the Institution for clothing, pocket-money or other expenses of the students. If parents, therefore, desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, ten pairs of socks, six handkerchiefs, six towels, six napkins, two pairs of boots or shoes, etc.

The pocket-money of the students must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents living at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed, "ST. LOUIS UNIVERSITY, corner Ninth Street and Washington Avenue, St. Louis, Mo."

Acknowledgments.

The President and Faculty wish to express their grateful acknowledgment for the following donations made to the Museum during the past year :

Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829 by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, has steadily advanced, and it offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,500 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a separate collection of over 8,000 volumes.

The College Villa, near the city, commands an extensive view of the Mississippi River and surrounding country. In its ample buildings, spacious groves and recreation grounds, the students may spend their weekly holiday and the summer vacation, in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Wednesday of June, when the Annual Commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Wednesday of June. A thorough examination of all the classes is made at the close of each term. Every month, the places or degrees of merit obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On completion of the Classical Course, the degree of A. B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A. M. may be obtained, by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen, unless he is considerably advanced in his studies.

Three times a year Bulletins are sent to the parents or guardians of the students, to inform them of the conduct, health, and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students whose parents and guardians live in the city or vicinity are allowed to visit them.

During the eight days' recess, which begins on the 24th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician visits the Institution daily. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of every denomination are admitted, provided they are willing to attend, in a respectful manner, the public exercises of religious worship.

Instructions to Parents.

No advances will be made by the Institution for clothing, pocket-money or other expenses of the students. If parents, therefore, desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, ten pairs of socks, six handkerchiefs, six towels, six napkins, two pairs of boots or shoes, etc.

The pocket-money of the students must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents living at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed, "ST. LOUIS UNIVERSITY, corner Ninth Street and Washington Avenue, St. Louis, Mo."

T e r m s .

As the Institution is not endowed, it is entirely dependent for its support on the fees paid for board and tuition.

The study of French and German is optional in either course. Instruction in these languages is given without extra charge.

Societies.

The Philalethic Society

Was instituted in 1832, with the sanction of the Board and Faculty of the University. Its objects are to prepare its members for public speaking, and to furnish their minds with historical facts and arguments on literary and philosophical questions. It possesses a spacious hall, which is elegantly fitted up and tastefully adorned with appropriate designs, and with representations of celebrated orators.

Total Number of Students.....350.

Prospectus.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829 by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, has steadily advanced, and it offers the student every facility for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 16,500 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a separate collection of over 8,000 volumes.

The College Villa, near the city, commands an extensive view of the Mississippi River and surrounding country. In its ample buildings, spacious groves and recreation grounds, the students may spend their weekly holiday and the summer vacation, in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one *session*, beginning on the first Monday of September, and ending on the last Wednesday of June, when the Annual Commencement, the conferring of degrees, and the distribution of premiums take place.

The *session* is divided into two *terms*, the first ending on the first of February, and the second on the last Wednesday of June. A thorough examination of all the classes is made at the close of each term. Every month, the places or degrees of merit obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On completion of the Classical Course, the degree of A. B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A. M. may be obtained, by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than *one session*. No student will be received under the age of ten, nor over that of sixteen, unless he is considerably advanced in his studies.

Three times a year Bulletins are sent to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students whose parents and guardians live in the city or vicinity are allowed to visit them.

During the eight days' recess, which begins on the 24th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician visits the Institution daily. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of every denomination are admitted, provided they are willing to attend, in a respectful manner, the public exercises of religious worship.

Instructions to Parents.

No advances will be made by the Institution for clothing, pocket-money or other expenses of the students. If parents, therefore, desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, ten pairs of socks, six handkerchiefs, six towels, six napkins, two pairs of boots or shoes, etc.

The pocket-money of the students must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents living at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed, "ST. LOUIS UNIVERSITY, corner Ninth Street and Washington Avenue, St. Louis, Mo."

T e r m s .

As the Institution is not endowed, it is entirely dependent for its support on the fees paid for board and tuition.

Pupils who are not sufficiently advanced to enter the Classical or the Commercial Course are received into the Preparatory Class, provided they know how to read, and are not under ten years of age.

FRENCH AND GERMAN.

The study of French and German is optional in either Course. Instruction in these languages is given without extra charge.

Societies.

The Philalethic Society

Was instituted in 1832, with the sanction of the Board and Faculty of the University. Its objects are to prepare its members for public speaking, and to furnish their minds with historical facts and arguments on literary and philosophical questions. It possesses a spacious hall, which is elegantly fitted up and tastefully adorned with appropriate designs, and with representations of celebrated orators.
